ABOUT ME

Full-stack developer with expertise in React.js, Node.js, and modern web technologies, experienced in developing real-time and scalable applications. Proven ability to solve complex problems under pressure through hackathon participation and project development. Focused on writing clean, efficient code and building secure, high-performance systems.

HACKATHON JOURNEY

Runners Up - ElectroSphere 2k26

Swaminarayan University

2026 Gujarat

https://secure-comm-jade.vercel.app

- Secured 2nd position in a competitive technical Hackathon
- Demonstrated strong problem-solving and technical skills under pressure
- Collaborated effectively to deliver a high-quality solution

Hackathon - SU Hackathon

Sangam University, Bhilwara, Rajasthan

2026 Rajasthan

https://cers-plus.web.app/

- Selected a s a finalist among multiple teams in a university-level hackathon.
- Collaborated with a team to develop a solution within limited time constraints.
- Demonstrated strong problem-solving, teamwork, and development skills.

Selected For Offline Round - Hack.X

Government Engineering College,Gandhinagar

2026 Gandhinagar

https://github.com/ParthKaretiya/HackX

- Actively participated in hackathons, developing real-world solutions in team environments and earning recognition through finalist selections and rankings.

SKILLS

Full Stack Ecosystem

HTML	CSS	JavaScript	React.js	Redux
Node.js	MySQL	Git& GitHub	C / C++	Python
Postman	Vercel	REST APIs	MongoDB	Redis

EDUCATION JOURNEY

Bachelor of Engineering

Swaminarayan University

2025-2029

12th Grade

GyanmanjariSec. and High Sec. School, Bhavnagar

10th Grade

ShreeGyanmanjari School, Bhavnagar

MY PROJECTS

Secure-comm(Middleman Attacks)

Built a secure communication platform implementing encryption to protect data against Man-in-the-Middle (MITM) attacks.

Github **Live Project**

CERS (Medical SOS System)

Developed a medical SOS application designed to send emergency alerts and provide quick assistance during critical situations
Enabled users to trigger instant notifications and share essential information for faster response

Github **Live Project**

Chess Game(2-Player)

Built a Chess game implementing core game logic, move validation, and interactive UI. Ensured accurate rule enforcement and smooth gameplay experience.

Github **Live Project**

FRONTEND CLONE PROJECTS

Daryaganj Clone	Github
Railone UI	Github
Dorjetea Clone	Github
Surftwins UI	Github
Adilquadri Clone	Github
HumpyFarms Clone	Github

CERTIFICATES

ElectroSphere^{DM} 2K26 - 2nd Place Winner
Hack.X at HackTheSpring '26
SU_HACKATHON - Finalist
Dev Heat Hackathon (Spring Fiesta)
Quasar 4.0
Odoo x Adani Hackathon
E-contest
Encode 2026
BITATHON
Bounty Quest
Quantified delemma
